Our 3rd generation enrollment system is recognized as one of the most comprehensive employee self-service open enrollment systems available. It includes all the elements critical for enrollment success -- employee information resources, self-enrollment functionality, data acquisition, aggregation, and distribution, and much more.

WECARE[®] Online also gives you the platform to migrate easily from this enrollment-only system to our full self-service system.

WECARE[®] Provides the Best Price Value

We believe we can offer you the most cost-effective self-enrollment system on the market. Imagine a system with the full range of enrollment features for **less than \$1.00 per month** for each benefit-eligible employee -- and that includes all enrollment and data functions.

There are no hidden charges. No extra programming fees. No implementation expenses. Nothing that will embarrass you during the budget review!

Customers constantly tell us that we provide the best customer service in the industry. That means we guarantee and deliver our **full-service promise**.

The promise includes our original custom-designed system, deployment on the web, during-enrollment servicing, and final data distribution -- as well as experienced professionals who strongly believe in, and deliver, superior individual customer service. This commitment virtually guarantees a successful online enrollment.
